Iegor Riepin

I am a postdoctoral researcher at the ENSYS @ TU Berlin

My research stands at the intersection of economics and operations research. The overarching goal is to provide empirical and computational evidence to guide public- and private sector stakeholders in dealing with challenges of energy transition. Generally, I enjoy using mathematical models to compute some stuff. I believe in open science, and I try to contribute by sharing my code, data and teaching materials.

Work experience

2022.03 – present
Postdoctoral researcher | Energy system modeler
Department of Energy Systems ENSYS @ TU Berlin
Open-source energy system modeling: https://pypsa.org/

I work on the 24/7 Carbon-Free Energy by 2030 project funded by Google. In October 2022, we published the first study. The work on this project is open and reproducible: https://github.com/PyPSA/247-cfe

2014.11 – 2022.02
Research fellow | PhD student
ESM group lead (2021.09 – 2022.02)
Brandenburg University of Technology (BTU CS), Germany
Chair of Energy Economics
I have carried out independent and third-party funded research on energy economics & energy systems modeling. The topics included infrastructure investments, decisions under uncertainty, risk-aversion, sector coupling and energy auctions.

2019.09 – 2019.10
Visiting researcher
University of Victoria, Canada | Institute for Integrated Energy Systems
My work was focused on robust optimization algorithms applied to electricity system expansion problems.

2013.10 – 2014.09
Student assistant
Chair of Energy Economics, BTU CS

2013.09 – 2013.10 **Intern**
DIW Berlin, Institute for Economic Research, Germany
Department: Energy, Transportation, Environment

Academic background

2014.11 – 2022.06 **PhD (summa cum laude) in energy economics**
Supervision: Prof. Felix Müsgens | BTU CS
PhD thesis '*Modeling challenges of modern energy markets: studies on uncertainty, complexity, and constant change*' is published in open access.

2012 – 2014 **M.Sc. (Hon) in Power Engineering**
BTU CS, Germany | Final grade: 1.2 (/1)

2008 – 2012 **B.Sc. (Hon) in Heat Power Engineering**
ZSEA, Ukraine | Final grade: 4.98 (/5)

Third-party projects

2022.03 – present *@TUB:* **24/7 Carbon-Free Energy Procurement.** Funding: Google Inc. See **Operating on 24/7 Carbon Free Energy by 2030** objective by Google.

2021 (ongoing) *@BTU:* TransHyDE: **System analysis of transport solutions for green hydrogen.** Funding: BMBF (Federal Ministry of Education and Research) Cooperation: >30 partners | Project web page

2017 *@BTU:* **Design of auctions for market premia for onshore wind generation: theoretical and experimental testing.** Cooperation: CERGE-EI. Summary

2016 *@BTU:* **Strategy 2020: modelling of forward prices for natural gas in European gas markets.** Funding: industry partner. Cooperation: r2b energy consulting GmbH

2014 – 2016 *@BTU:* **Fundamental gas market analysis in a context of the German energy transition process.** Funding: gas trading utility. Cooperation: r2b energy consulting GmbH. Summary

Teaching experience

2014 - present	Supervision of master's and bachelor's theses, and study projects in energy economics and all around modeling of energy systems.
WS17/18 WS18/19 WS19/20	**Energy Systems Modeling** (course development, selected lectures, tutorials, supervision of student projects) Lecture: Prof. Dr. Felix Müsgens | Course GitHub page
From WS14/15 until SS2018	**Power System Economics 1** (Winter terms | tutorials) **Power System Economics 2** (Summer terms | tutorials) Lecture: Prof. Dr. Felix Müsgens and Prof. Dr. Stefan Zundel

Scholarships & awards

2017 – 2019	Postgraduate scholarship, BTU CS (Promotionsstipendium des Landes Brandenburg, GradV)
2014	Rheinstahl foundation study scholarship (Master degree)
2013	STIBET study scholarship, DAAD (Master degree)
2010	Zaporizhia city administration scholarship (Bachelor degree)

Some technical skills and languages

Mathematical modeling & programming	**GAMS** (project-related use, independent research and teaching)
	Python (project-related use, independent research and hobby projects)
	Git (version control)
Languages	**English** (fluent)
	German (C1 certificate)
	Ukrainian (native fluent)
	Russian (native fluent)
